PROFILE SUMMARY

Accomplished Technical Lead with over **12 years** of expertise in end-to-end full-stack development, specializing in **Ruby on Rails, Angular, Microservices, and Cloud Architecture**. Currently working as Technical Lead Full-Stack Engineer at Encora, delivering cutting-edge solutions for Mindbody Online in the wellness and fitness domain. Expert in CI/CD pipeline optimization, Agile methodologies, API integrations, Docker, and performance tuning, with a strong track record of building scalable, high-performance systems using GraphQL, REST APIs, and Microservices. Spearheaded cross-functional teams of up to 10 engineers and led seamless AWS migrations.

CORE COMPETENCIES

- ▶ Full-Stack Development
- ▶ Agile Methodology
- ▶ Quality Assurance & Testing
- ▶ Microservices Architecture
- ▶ CI/CD Pipelines & Automation
- ▶ DevOps & Infrastructure Automation
- ▶ API Design & Integration
- ▶ Software Architecture & Design
- ▶ Performance Optimization
- ▶ Cloud Solutions (AWS)
- ▶ Team Leadership & Mentoring
- ▶ Cross-Functional Collaboration

SOFT SKILLS

Cross-Functional Collaboration

Change Agent

Team Leadership

Decision Making

Effective Communication

Time Management

TECHNICAL SKILLS

Languages Ruby on Rails, Angular

Web / API Microservices, SOAP & REST Web Services, Docker, Git, GraphQL

Special Skills RSpec (Unit, Integration, API Testing), Postman Automated API Testing

Databases	PostgreSQL, MySQL, MongoDB
App Servers	Puma, Passenger (Phusion Passenger), WEBrick (legacy ROR server)
Messaging	RabbitMQ, Kafka, Redis Pub/Sub
Tools & Platforms	Agile/Scrum, Jira, Confluence, Azure DevOps, GitLab, Git, Docker, AWS

WORK EXPERIENCE

Technical Lead / Lead Full-Stack Engineer — **Encora, Bangalore** Aug 2023 – Present

Client: Mindbody Online (Wellness & Fitness SaaS) | **Project:** Marketing Suite | **Stack:** Ruby on Rails, Redis, Devise, JSON-API, Microservices

- Spearheading the design and implementation of cutting-edge features, quickly addressing critical bugs, and ensuring continuous user satisfaction through rapid releases.
- Leading Ruby version upgrades and migration strategies ensuring smooth transitions that minimize workflow disruptions.
- Conducting comprehensive code reviews to enforce rigorous quality standards, fostering a culture of continuous improvement.
- Designing and executing testing strategies that proactively identify issues, ensuring reliable, bug-free releases.
- Streamlining workflows and improving internal processes to boost team productivity and reduce time-to-market.
- Mentoring teams, fostering knowledge sharing, and cultivating an agile work environment.
- Led seamless end-to-end migration to AWS with zero downtime, improving deployment speed and application performance.
- Introduced a proactive monitoring system that reduced incident resolution times and increased 24/7 system uptime.
- Driving backend transformation efforts improving system scalability aligned with long-term business goals.
- Strengthened security protocols, reducing vulnerabilities, and ensuring compliance with industry standards.

Senior Full-Stack Developer — **Covalience India Pvt. Ltd., Mohali** Apr 2020 – Aug 2023

Project: NIS – Investment Scheme Platform

Technologies: Ruby on Rails, Angular 13, GraphQL, Devise, Paperclip

- Spearheaded migration from a legacy Windows app to a web-based platform with new client-specified features.
- Led development using RoR for backend and Angular for frontend, integrating GraphQL APIs.
- Applied Angular lazy loading to optimize web app performance and resource management.
- Collaborated directly with clients to gather and refine requirements aligned with business goals.

Project: Medical Equipment Planning System

Technologies: Angular 9→15, Ruby on Rails 5.1, GraphQL

- Built medical equipment management web app integrating with RoR GraphQL APIs for seamless data interaction.

- Optimized UX via Assembla collaboration, reactive forms, lazy loading, and routing.
- Upgraded application from Angular 9 to 15, resolving compatibility issues to meet client requirements.

Project: Trendency – Business Intelligence Platform

Technologies: Angular 13, HTML, CSS, GraphQL, .NET

- Led migration of a legacy Windows application to a modern web platform with client-specific feature enhancements.
- Utilized Angular and .NET for frontend/backend development, integrating GraphQL APIs.
- Directed project execution from concept to deployment, delivering a feature-rich solution on time.

Ruby on Rails Developer — Antier Solutions Pvt. Ltd., Mohali

Aug 2019 – Apr 2020

Project: Arya (EHR System)

Technologies: Ruby on Rails, Angular

- Delivered a comprehensive, feature-rich EHR solution for patient data, appointments, e-prescribing, and medical billing.
- Developed an affordable EHR system accessible to healthcare providers of all sizes.
- Crafted an intuitive, easy-to-use interface optimizing workflow efficiency with minimal training required.
- Streamlined healthcare operations to improve patient care, aligning software with provider needs.

Ruby on Rails Developer — Smart Data Enterprises Inc., Mohali

Jul 2018 – Mar 2019

Project: Health Tree

Technologies: Ruby on Rails, React, APIs

- Created a tool empowering multiple myeloma patients with real-time treatment options for informed physician discussions.
- Equipped community providers with up-to-date myeloma treatment insights for more effective care.
- Launched a patient-driven research platform guiding personalized treatment decisions with healthcare professionals.

Ruby on Rails Developer — SkyAch Software Solutions Pvt. Ltd., Mohali

Sep 2014 – Jun 2018

Project: Movers & Packers Platform – moveitpro.com

Technologies: Rails 3–5, MySQL, jQuery, Twilio, PayPal, Authorize.net, AWS, Paperclip, Prawn, Spree

- Led creation of a robust platform for moving companies, streamlining sales and job management.
- Integrated PayPal and Authorize.net for secure, efficient payment processing.
- Implemented Twilio's chat system enabling seamless customer interactions.
- Delivered a user-friendly platform boosting customer satisfaction and driving revenue growth.

Project: Lead Assignment & Maintenance System

Technologies: Rails 4, MySQL, Devise, Thinking Sphinx, Mandrill

- Built a lead generation platform for financial advisors using targeted online advertising.
- Developed an automated system for assigning leads based on advisors' preferred regions.
- Implemented a performance-driven per-lead pricing model ensuring transparency and fairness.

Project: Doctor & Patient Appointment Booking System

Technologies: Rails 4, HTML, CSS, APIs

- Engineered a seamless appointment booking system optimizing scheduling for doctors and patients.
- Designed an intuitive interface for effortless schedule management and patient interactions.
- Integrated lead generation tools enhancing patient acquisition and practice growth.

EDUCATION

MCA (Master of Computer Applications)	Punjabi University, Patiala	2014
BCA (Bachelor of Computer Applications)	Guru Nanak Dev University, Pathankot	2011

CERTIFICATIONS

✓ Code Bashing in Ruby on Rails

AWARDS & RECOGNITION

- ★ Super Encorian Award (x2) — Encora
- ★ Rising Star Award — Antier Solutions Pvt. Ltd.
